Hamilton Project: Hercules Mulligan Poem

Mulligan came to America when he was six

He helped America solve one of its biggest conflicts

When he was young he opened a clothing business

The New Yorkers went shopping like it was Christmas

Not only the rich but British soldiers too

Heard their secrets and gave it back to his crew

Even though he lived among the British

His pride would never falter nor diminish

Mulligan became a member of the Sons of Liberty

He thought siding with the British was stupidity

Mulligan helped influence Hamilton argue for independence

Which would only lead to America's ascendance

This man is a legend where do we even begin
He saved the first president George Washington
Washington's army needed some improvements
So Mulligan became reliable for the movements
He saved the president not once but twice
Due to him acting like some warning device
